Text Book
  This is a continuation of Elementary Analysis I. In this semester, we will cover Chapter 6 to
  Chapter 10 of the book. After Chapter 10, if we still have time, we will discuss some supplemen-
  tary materials, such as Fourier Analysis.

Assignments
  You should do all the exercises at the end of each section. I will also give supplementary
  exercises for you to practise. There will be three quizzes and one midterm. One final examination
  is scheduled.
