Seminar

An introduction to additive combinatorics

Dr. Changhao Chen
University of New South Wales

Abstract

Additive combinatorics plays fundamental roles in the fields of fractal geometry, harmonic analysis and exponential sums, etc. I will first introduce some classical and beautiful results in additive combinatorics, and then show some basic and useful estimates in this field.

Date: 12 July 2019 (Friday)
Time: 4:00pm – 5:00pm
Venue: Room 222, Lady Shaw Building,
             The Chinese University of Hong Kong, Shatin

All are Welcome
