This is a ~~Mandatory~~ online test conducted on the **WeBWorK** e-learning platform. One of its main objectives is to help you gauge your own level of mathematical knowledge relative to your classmates.

Please read the following carefully before clicking on the link at the end to proceed to the review test.

- The review test is the WeBWorK assignment titled "**Review Test**".
It will open at 5:00 pm, and close at 7:00 pm, on Thursday, September 5, 2024.
- Please submit all the answers through the WeBWorK interface before the deadline.
- For each question, you *must* click on "**Submit Answer**" (instead of just "Preview Answer") in order for your answer to be recorded.
- You are allowed **only one attempt** for each question.
- Please answer all questions.
There are 20 multiple-choice questions worth 5 points each, totalling to 100 points.
- Each question has only one correct answer.
- To properly gauge your mathematical background, this is a closed-book test. **No notes nor calculators are permitted.**
- To minimize anyone's confusion (yours as well as ours), do NOT open more than one WeBWorK window or tab at the same time while you are taking the test.
- If you need any technical assistance, please feel free to ask for help during the test in the ZOOM meeting corresponding to your tutorial session.
